

Greek mobile number

Go to any Mobile service provider store like "Germanos ("Γερμανός")", "Cosmote" or "Vodafone" with your passport and ask for a SIM Card for your cellular phone, as well as a confirmation that this number belongs to you.

Alternatively you can make an online request at [vodafone](#), [what's up \(cosmote\)](#) or [wind](#) and you will receive your card by post.

In addition to a residential address, you will need a Greek phone (mobile) simply to confirm the card's shipment.

The cost starts from 10 euros and the SIM card is being sent to you by postal service.
